

December 29, 2020

Kelly Butler
Finance Director
State of Alabama
Department of Finance
600 Dexter Ave.
Montgomery, AL 36130

Dear Director Butler,

In accordance with the *Memorandum of Understanding Between The State of Alabama Department of Finance and Abel Healthcare Enterprises, LLC for the Distribution of Cares Act Coronavirus Relief Funds Related to the State Veterans Homes (MOU)*, please consider this as the report of Abel Healthcare on the expenditure of the funding provided pursuant to the MOU.

Prior to the “return funds” date of December 26, 2020, Abel Healthcare was able to expend the full funding amount under the MOU to provide the licensing software for the VitalEngine collaborative rural healthcare network to each of the entities covered in the MOU—to wit, 4 Alabama Veterans Administration nursing homes.

Complete listings of the facilities to which Abel Healthcare provided the licensing software for the VitalEngine collaborative rural healthcare network prior to December 26, 2020, are attached hereto. (See Attachment A for the Alabama Veterans Administration Nursing Homes). These listings also include the name and contact information of the person(s) at each facility with whom Abel Healthcare has been in contact regarding the licensing software for the VitalEngine collaborative rural healthcare network.

Moreover, also prior to the “return funds” date of December 26, 2020, Abel Healthcare was able to offer training sessions to each of the listed facilities, as required by the MOU. Please refer to Attachment B to this report for a listing of dates and times on which these trainings were delivered, as well as a brief description of the content of the training sessions. Of course, Abel Healthcare remains available until December 30 to continue to work with any of the covered facilities for further training on their VitalEngine account as needed on a facility-by-facility basis.

It is our understanding that, as of the submission of this report, Abel Healthcare has complied with all of its requirements under the MOU; provided, however, that Abel Healthcare remains available to answer questions and offer additional training and guidance on the VitalEngine software to the covered facilities until and including December 30, 2020, as mentioned above.

If you have any questions regarding the use of the CARES Act funding provided to Abel Healthcare under the MOU, please let us know as soon as possible so that we can clarify and or/rectify any issues prior to the stop-work date of December 30, 2020. However, as mentioned above, we believe that Abel Healthcare has fully complied with its requirements under the MOU.

Director Butler, it has been a pleasure to be able to build out the VitalEngine collaborative rural healthcare network using CARES Act funding over these past several weeks. Thank you, and I hope you have a Happy New Year.

Sincerely,

A handwritten signature in black ink, appearing to read 'Philip Johnson', with a long horizontal flourish extending to the right.

Philip Johnson, MD, PhD
President, Founder
Abel Healthcare Enterprises, LLC

Attachment B

Virtual training titled “Alabama Rural Healthcare Network powered by VitalEngine” was offered to each of the State’s Veterans Home and delivered successfully during the following dates and times.

- Wednesday December 16, 2020 1:00pm – 2:00pm
- Thursday December 17, 2020 1:00pm – 2:00pm
- Tuesday December 22, 2020 2:00pm – 3:00pm

The content of the training included:

- An introduction to the platform
- Examples of use cases
- Instruction on how to install application
- Instruction on account creation
- Instruction on VitalEngine functionality
